FYI and prep. Thursday will be a busy day. I will advise Karl as follows:

1. we should issue the letter and a news release with the contents of the letter at the same time on Thursday.
2. a FAQ would be helpful. Do we have anything already? I'll engage Ron and Cecilia as well.
3. I think a story or two complemented with a digital push would be appropriate.

Background: The attorney general issued the attached news release today. The AG has been in contact with us so the letter was not a surprise.

More to come.

Delete entire last graf on leachate.

I will sign Thur am. We will pdf to AG soon as I sign. We will send courtesy copy to SPP and Cols Hall and Sexton but they r not shown as cc's.

Curtis: important letter so suggest R7's 'rollout' match intensity and complement techniques used by AG Office. Also suggest S/f and cnsl prepare FAQ type piece for use in media followup. And advise whether I or CT or neither do followup media from letter.
